Product Technical Datasheet

HEGUANG WZC-CGP-10

PRODUCT CONFIGURATION

Product name	HEGUANG Solar-Powered Smart Carport
Model	WZC-CGP-10
Brand	DLXNPOWER / HEGUANG
Company	Baoding Donglan New Energy Co., Ltd.
Carport type	Solar-Powered Smart Carport
Column form	Rear-set single column
Nominal power per module	650W
Modules per carport	10 modules
Module layout	2×5
Nominal installed array capacity	6.5kWp(STC)

Building 2, Fulcrum Science and Technology Park, Lianchi District, Baoding City, Hebei Province

Product Technical Datasheet

Charging, Lighting and Carport Configuration

CHARGING & RATING

Charging type	AC charging
Rated power per gun	7kW
Charging positions	Two per column
Gun location	One on each opposite side of the column
Storage arrangement	Column-side gun holders and cable storage
Lighting function	Automatic sensor lighting
Drainage components	Longitudinal gutters and transverse drainage parts
Waterproofing focus	Module joints, perimeter edges and drainage interfaces

6.5kWp is nominal array capacity under Standard Test Conditions (STC). 7kW is the rated power of each charging gun. Electrical connections follow the project distribution design.
